

MARUF HOSSAIN

B.Sc. Engg. Student in Chemical Engineering

Dept. of Applied Chemistry & Chemical Engineering | University of Rajshahi

Location: Rajshahi / Kushtia, Bangladesh | Faculty of Engineering, RU

ACADEMIC SUMMARY

Undergraduate in Applied Chemistry & Chemical Engineering (B.Sc. Engg. in Chemical Engineering).

Focusing on wet-bench laboratory analysis, process calculations, material balances, and simulation.

EDUCATION

B.Sc. Engg. in Chemical Engineering | University of Rajshahi (2024 - 2029 Expected)

- Dept. of Applied Chemistry & Chemical Engineering (ACCE)
- Core: Process Calculations, Thermodynamics, Fluid Flow, Reaction Kinetics, Analytical Lab

Higher Secondary Certificate (HSC) | Kushtia Government College (2024)

- Result: GPA 5.00 / 5.00 | Concentration: Science (Chemistry, Physics, Higher Math, Biology)

Secondary School Certificate (SSC) | Kushtia Zilla School (2022)

- Result: GPA 5.00 / 5.00 | Concentration: General Science

TECHNICAL & COMPUTATIONAL SKILLS

- Laboratory: Titration, Volumetric Analysis, Qualitative Chemistry, Lab Safety & Glassware Setup
- Engineering: Material & Energy Balances, Stoichiometry, Error Propagation Analysis
- Software: Python (NumPy, Matplotlib), MATLAB / Octave, MS Excel Data Modeling, MS Word

ACADEMIC PROJECTS & LAB STUDIES

Acid-Base Volumetric Titration & Uncertainty Analysis (Lab Investigation)

- Standardized NaOH vs primary standards; quantified measurement variances within 0.28% RSD.

Binary Distillation Column Simulation & McCabe-Thiele Solver (Process Simulation)

- Formulated vapor-liquid equilibrium (VLE) models and automated theoretical equilibrium trays.

LANGUAGES

Bengali (Native) | English (Professional / Academic Working Proficiency)
